

Sergey Kudelin

Growth / GTM Engineer · Miami, FL · Remote

sergey@sergeykudelin.com · sergeykudelin.com · [GitHub](#) · [LinkedIn](#)

I work on growth at early-stage startups, building products and outreach systems with AI agents. At FutureClinic, I proposed and prototyped a content system for doctors. At Fyxed, I built the website and outreach operation. Before startups, I built a Roblox YouTube channel to around 200K subscribers. I'm looking for a full-time, remote role where I can build with a team for the long term.

Experience

Growth Engineer · Fyxed

Contract · Jun-Aug 2026 · Remote

- Built a prospect database for U.S. third-party single-family rental property managers with full coverage nationwide by combining industry directories, company websites, state licensing records, and business filings.
- Built custom scrapers and AI agent workflows for company research, contact enrichment and personalized outreach, with source verification, deduplication and integration into a self-hosted CRM.
- Conducted customer discovery for repair financing through direct conversations with prospective customers, working closely with legal to shape product requirements, clarify financing limits and identify eligible use cases.

GTM Engineer · FutureClinic (YC F24)

Full-time · Mar-May 2026 · Remote

Platform that lets doctors launch digital clinics.

- Proposed FutureClinic Creators and built its initial prototype to help doctors attract patients through articles and YouTube videos. Developed workflows for content research, topic ideas, question cards, scripts and thumbnails.
- Revised the script and thumbnail stages based on feedback and parallelized background generation to reduce waiting. Another engineer then developed the prototype for production.
- Proposed targeting doctors with existing audiences. Built Nikola, an AI research and outreach agent, along with physician verification workflows and personalized clinic previews.

"I recommend Sergey without reservation."

Dr. Usama Syed, Founder, FutureClinic

YouTube Creator (SergeCode) · Self-employed

2019-2025

- Built and ran @SergeCode, a Roblox YouTube channel, to around 200K subscribers and more than 13M views. A game-building video reached 3.7M views, and a Short reached 5.3M.
- Developed video ideas, wrote scripts and edited videos. Built the Roblox games and assets featured in videos about building with AI.

Projects

- **Lux:** AI coding assistant for Roblox Studio, distributed through my YouTube channel.
- **DermHunter:** Doctor-discovery prototype built in two nights for FutureClinic. Combined creator research, NPI record matching and contact research.
- **Agent workflows:** Reusable skills for research, writing and reviewing agent work. github.com/Seryozh/agent-skills
