

Sergey Kudelin

Growth Engineer / Miami, FL

sergey@sergeykudelin.com / sergeykudelin.com / linkedin.com/in/sergeykudelin / github.com/Seryozh

I got into FutureClinic by building them a working doctor-discovery system before I had the job. Now I am the Growth Engineer at Fyxed, where I build the systems it uses to find and prove demand.

EXPERIENCE

Growth Engineer / Fyxed

Contract / Jun 2026 to present

Fintech for residential property managers.

- Built and now operate the system Fyxed uses to find property managers already signaling an owner-payment problem, with the source evidence and decision-maker attached.
- Built and now run Fyxed's PM-branded owner workflow for a live repair-funding case, including private intake and internal review.
- Built Fyxed's first outbound stack across CRM architecture, enrichment, sequencing, and channel testing. The founder used it to book the company's first outbound meeting.

GTM Engineer / FutureClinic, YC F24

Contract / Mar to May 2026

Digital clinics and creator tools for physicians.

- Built the first working version of FutureClinic Creators myself, including its backend and AI pipeline, then worked with another engineer to take it into production. It is live today.
- Built Doctor Preview Pages and the internal review and publishing workflow behind them, giving each physician creator a custom clinic page and founder video made specifically for them.
- Built Nikola, an AI outreach agent in Slack that researched physician creators and created personalized Gmail drafts only after human approval.

SKILLS & TOOLS

Languages & web	TypeScript, JavaScript, Python, SQL, HTML/CSS, React, Next.js, Node.js, FastAPI, Express
Data & infra	Postgres, Supabase, Redis, Drizzle, BullMQ, Modal, Vercel, GitHub, REST APIs, webhooks
AI & agents	Claude, Codex, Claude Agent SDK, OpenRouter, Gemini, GPT-4o, LangGraph, human approval
GTM & research	Clay, Apollo, Exa Agent API, Firecrawl, Apify, Hunter, Snov, NPI Registry, YouTube Data API
CRM & outbound	Twenty CRM, Instantly, Smartlead, Airtable, Slack, Gmail, Resend, Twilio Lookup, OpenPhone, Google Drive

CREATOR BACKGROUND

Built and ran a Roblox YouTube channel before entering startups. That work trained my instincts for audience research, idea selection, scripts, thumbnails, and keeping content specific to the creator.

EDUCATION

Florida International University
